SRM 1216 Semi-Auto Tactical Shotgun

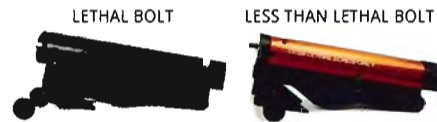

1 Ambidextrous Controls

Whether you're a left or right handed shooter, you have 10 available configurations to make your weapon a perfect fit.

- Bolt release
- Charging handle
- Safety
- Ejection port
- Sling plate
- Manual index
- Bolt head

2 Dual Platform

Interchangeable bolt allows the 1216 to quickly switch from lethal rounds to less than lethal rounds.

4 Break Open

Breaks open like an AR for easy field stripping, maintenance, and bolt access

5 MIL-STD 1913 Picatinny Rails

Standard picatinny with a three face handguard rail to accommodate a variety of tactical accessories

3 Hammerhead Bolt Stop

Fluted chamber to aid in cycling rounds

Billet Receiver

Precision machining for more accuracy and stronger composition

6 Hammer Forged Barrels

With a durable, high temp Nitride finish

7 Magazine Quick Release

Drop and reload a new magazine in 3 seconds

Manual Index

Quickly rotate magazine with a push of your finger

8 16-Round Detachable Magazine

High capacity fire power in a small, lightweight magazine reinforced with Zytel™

9 Upgraded Tactical Spine & Buttplate

Prevents warping and cracking when shooting extensive amounts of ammunition and larger loads. Available with a cushioned recoil pad
